

Anglesea Sustainable Veneer Timber lighting is a decorative range of LED lighting manufactured from sourced sustainable timber and metal in an option of styles and finishes. This product has a low carbon foot print and a warmth desirable for most spaces.

Bluelab has been manufacturing and distributing lighting for nearly two decades.

Anglesea complements the Truss range offering the warmth of timber with LED efficiency. This range has a selection of decorative lighting products to suit a variety of projects from commercial to domestic.

Each product in this range has been meticulously design to create unique atmospheres.
